Subject: ALH39913120 justification letter for expanded frequency range 380- 470MHz

Gentlemen;

You have asked Kenwood USA for justification to have the 380- 470 MHz freq range appear on the face of the FCC Grant of Certification for a Part 90 Certification. This frequency range is regarded as usual & customary by United States Federal Government and its various departments, user organizations and the military to appear on the face of the equipment Grant of Certification.

(1) Kenwood's Marketing Department plans to ensure that USA users, other than those specifically identified in this letter, cannot operate outside bands 406.1-470MHz, as controlled by the users' FCC station license.

(2) This device will not be marketed to USA users, other than those identified in the letter, namely the US Government and its various departments & military, for operation in 380-402MHz frequency range.

Thank you,
Joel Berger
Engineer
