March 11, 2009

RE: FCC ID: ALH423500_ATCB007353

Attention:

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that other than on a couple pages in the report you have not shown evidence of parts 22 and 74 compliance. Please note that when certifying a transmitter for multiple rule parts, each associated rule part must be adequately addressed. The report appears only to address Part 90 sections, and does not provide associated part 22 and 74 sections. Please specifically identify the exact rule sections in part 22 and 74 to which this device is being certified. For example, the report mentions Masks B and D for part 90, but does not list the specific requirements for occupied bandwidths under parts 22 and 74. What are they and how was it shown the device complies with them.
2. Please note that part 22 is an ERP limit, but the data reports conducted power. Please explain and please address the specific issues with the other rule parts.
3. Please note that as the report stands it only justifies part 90 operation. Please justify (report data specific to) parts 22 and 74. Please be specific as to where and how this device fits into parts 22 and 74 (i.e. what rule sections within those parts)
4. Perhaps I missed it, but I do not see any clear RF exposure cautions or notices in the manual. If these do exist, please point to the page number exhibiting these warnings. If they do not exist, please provide adequate RF exposure information in the manual as required.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Except as described in §0.459, correspondence and responses should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
