Subject: REVISED PORTION OF TEST REPORT – CELLULAR IMAGE REJECTION

FCC ID: AMWUB310 – 731 Confirmation Reference Number – EA95588

Dear Sir or Madam:

In the original upload, under the "Exhibit Type" named "Test Report", we attached an exhibit that we named "Test Procedure and Report". Pages 7 & 8 depict the test results and procedures of the "Cellular Image Rejection" tests that are required under the current FCC Part 15.121(b).

Subsequent to this upload of the application and supporting documentation, we became aware of the fact that the information reported in this portion of the test report would not meet the Commission's requirements in so far as the procedure and documentation for this test is concerned. We were notified of this when another application for a scanning receiver was being reviewed.

Therefore, we have retested the above referenced device using the procedures that were found to be acceptable. The revised procedures and test results have been uploaded as "Revised Cellular Image Rejection Test Data". Please disregard the pages 7 & 8 of the original "Test Procedure and Report" and substitute the revised exhibit being uploaded today.

Thank you for your consideration in this matter. Please contact the undersigned in you have any question or need any additional information.

Sincere regards,

A handwritten signature in black ink that reads "James R. Haynes". The signature is written in a cursive style with a large, stylized "J" and "H".

James R. Haynes
