

## FCC Declaration Letter

December 3, 2012

To: Federal Communications Commission  
Equipment Authorization Branch, Lab Div., OET  
7435 Oakland Mills Road  
Columbia, Maryland 21046

Subject: Compliance to Cellular Band Exclusion

Applicant: Uniden America Corporation  
4700 Amon Carter Blvd.  
Fort Worth, Texas 76155  
Jon Suehiro, Manager, Engineering and Regulatory Affairs

FCC Identifier: AMWUB371

Pursuant to the requirements contained in Part 15.121 of the Commission's Rules, this scanning receiver does not have the capability of tuning the frequencies assigned to the Domestic Public Cellular Radio Telecommunications Service.

Firstly, this device range is limited to 530 kHz (AM broadcast) ~ 512 MHz, and 800/900 MHz range is not included.

In this circuitry, this device is not readily alterable to restore the cellular band coverage because the inventory of frequencies contained within this band is not available in the microprocessor. Also, the microprocessor is fixed soldered and not easily removable.

Therefore, since the clipping of leads; or the installation of a simple component such as a diode, resistor, or a jumper wire; or the reprogramming of any semiconductor device contained within this unit cannot be accomplished using a special access code or a personal computer; This is to certify that the conditions mandated in part 15.121 have been met.

Please contact the undersigned if you have any questions or need any further information.

Regards,

A handwritten signature in blue ink that reads "Jon Suehiro".

Jon Suehiro  
Manager, Engineering and Regulatory Affairs
