Request for Tech. Info.: 03/24/04

Dear Jim:

Transmitted herewith, is an amendment provided in response to Steve Dayhoff's request for technical information dated March 24, 2004.

1. We confirm that a crest factor of 4 was used during the SAR testing, as indicated in the SAR plots as "Duty Cycle 1:4".
2. Please find attached the revised measurement uncertainty table.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.
