Subject: Request for FCC Certification of Part 15, Subpart C
Class II Permissive Change

Dear Sir/Madam :

Please find enclosed an IBM's application document for the FCC Part 15, Subpart C certification under Class II Permissive Change .

- FCC ID of original grant : ANOTR4WGA1BAN (April/30/2001)
- Applying equipment name : ThinkPad T23
- Device type : 2400-2483.5MHz Spread Spectrum, Direct Sequence system

[Object]

The applying equipment was granted as a single frequency transmitter, therefore no other RF device has not been mounted nor used in this device.

This application is submitted to have the following user option cards allowed to be co-located with the applying equipment.

FCC ID : PI4BT-ULTRA, and O2OBTPCM101

Note) There is no modification placed on the original equipment in functionally, electrically, neither mechanically.

Sincerely, June 6 , 2001

June 6, 2001
