

Request for Class II Permissive Change

July 8, 2013

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : ANSBP3591
Applicant : ROHM Co.,Ltd.

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: ANSBP3591, originally granted on 02/23/2012.

We changed the following points from the original model.

·the antenna addition as follow:
Antenna type: 2.4GHz SLEEVE ANTENNA
Product No.: 1029-C17586
Gain: 2.14dBi

Please refer to "Theory of operation" and "External photo".

This time, we performed the testing and confirmed that this product still meets the minimum requirements of the applicable rules of FCC. Please refer to the test report submitted with this application.

Thank you for your attention to this matter.

Sincerely,

Yukito Toriumi
Module & Lighting Headquarters Power Module Div. / Group Manager
