WIRING THE STEREO

IMPORTANT: Disconnect the vehicle's negative (–) battery terminal before beginning the installation.

1. Plug the vehicle harness into the receptacle on the back of the Admiral stereo.
2. Plug the vehicle antenna harness into the antenna port of the back of the Admiral stereo.

MOUNTING THE STEREO

Place the stereo against the mounting surface and secure with four sheet metal screws.

GENERAL BUTTON OPERATION

1. **Home/Power:** turns the stereo on and off, and lets you access the home screen to choose sources.
2. **Source:** Cycle through sources one at a time.
3. **Menu:** Lets you return to the previous screen or enter the control menu of the source you're currently listening to.
4. **Volume/enter:** Turn the knob to raise and lower the volume, or to highlight desired control menu options. Press the center button to select the desired control menu option.

5. **DIM:** Lets you choose between Day and Night modes and access the brightness settings for the screen and buttons.
6. **SUB+:** Increases the subwoofer output level.
7. **SUB-:** Decreases the subwoofer output level.
8. **Camera:** Lets you display the rear camera view on the screen.
9. **PRESET:** Lets you access and select your radio preset channels or files and folders in a connected USB device.
10. **PREVIOUS:** Lets you tune radio stations, start at the beginning of a track or go to a previous track in BT and USB mode, and fast rewind a track in USB mode.
11. **PLAY/PAUSE:** Lets you play or pause a track in BT and USB mode, and mute the output in AM/FM mode.
12. **NEXT:** Lets you tune radio stations, jump to the next track in BT and USB mode, and fast forward a track in USB mode.

SYSTEM SETUP

Press and hold the VOLUME/ENTER button to enter the settings menu.

OR

1. Press the HOME button to enter the source selection menu.
2. Turn the volume knob until SETUP is highlighted.
3. Then press ENTER.

Audio control options

1. Turn the VOLUME knob to highlight AUDIO.
2. Press ENTER.
3. Turn the VOLUME knob to highlight the desired audio control setting.
4. Press ENTER.
5. Use the VOLUME knob to adjust the desired setting.
6. Press ENTER to set.

Audio setting options:

| RMS Power Output (Watts x Channel) @ 4-ohm | 25W x 4 |
| Frequency Response, +/- 3dB | 20Hz to 20kHz |
| Signal-to-Noise Ratio | >75dB |
| THD+N @ 4-ohm (amplifier) | 20% |
| THD+N @ 2.1Vrms (RCA outputs) | 1% |
| Operating voltage | 9V – 16V |
| Quiescent current | <0.2mA |

Caution

1. The operating temperature of this product is 45 °C
2. The product is a built-in component. The terminal where the product is installed should be used for the evaluation of product structure, and no consideration should be given to the temperature of the metallic casing. After the product is installed, only the operation panel is exposed to users.

Notes:

1. changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

2. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

3. which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

3. This device complies with Innovation, Science and Economic Development Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

(1) This device may not cause interference; and

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

4. RF exposure statement: The equipment complies with **FCC&ISED** radiation exposure limits set forth for an uncontrolled environment.

5. Cet appareil est conforme à la licence RSSs de Innovation, Science et développement économique Canada. L'exploitation est soumise aux deux conditions suivantes:

(1) ce dispositif ne doit pas causer d'interférences; et

(2) ce dispositif doit accepter toute interférence, y compris toute interférence susceptible de provoquer un fonctionnement indésirable du dispositif.

6. L'équipement est conforme aux limites d'exposition aux rayonnements isee établies par Innovation, Science et développement économique Canada pour un environnement non contrôlé.
