## **Declaration of difference**

February 13, 2019

Date:

The product: Portable Bluetooth Speaker

Model No.: BOOMBOXQ

FCC ID: APIJBLBOOMBOXQ

IC ID: 6132A-JBLBOOMBOXQ

Dear Examiner,

There are two kinds of products for two factories, the main PCB of the products is different, but the RF module is the same, so only radiated emission and Power Line Conducted Emissions were tested respectively and recorded in this report.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,

*Tim Song*
