MPE Separation Distance Statement

Will be added into the User's Manual

INFORMATION REGARDING EXPOSURE TO RADIO FREQUENCY ENERGY

The output power of the radio technology used in the appliance is below the radio frequency exposure limits set by the FCC. This appliance should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

The appliance and the cord meet the FCC Radio Frequency Emission Guidelines and are certified with the FCC. Information on these products is on file with the FCC and can be found by inputting such product's FCC ID (which can be found on the regulatory label of the appliance) into the FCC ID Search form available at transition.fcc.gov/oet/ea/fccid.

Please follow all applicable e-waste laws for the disposal of your microwave oven.
