

RF Exposure Statement

No. : 22HE0078-YW

Applicant	: SHARP Corporation
Type of Equipment	: Cordless Telephone Equipment
Model No.	: BB-HC1
FCC ID	: APYHRO00026

FCC Radiation Exposure Statement:

Sharp Corporation Cordless Telephone Equipment (BB-HC1) complies with FCC radiation exposure requirement specified in the FCC Rules 15.247(b)(4).

Notice in Installation Manual

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for uncontrolled equipment. This equipment should be installed and operated with minimum distance at least 20cm between the radiator and persons body (excluding extremities: hands, wrists, feet and legs) and must not be co-located or operated with any other antenna or transmitter.

RF Exposure Calculations:

The following information provides the minimum separation distance for the highest gain antenna provided with the "Cordless Telephone Equipment (BB-HC1)" as calculated from FCC OET Bulletin 65 Appendix B, Table (B) Limits for General Population / Uncontrolled Exposure. This calculation is based on the highest EIRP possible from the system, considering maximum power and antenna gain, and considering a 1.0 mW/cm^2 uncontrolled exposure limit. The formula used was:

$$S = (P * G) / (4 * \pi * r^2) \text{ or } r = \sqrt{(P * G) / (4 * \pi * S)}$$

Where

S =	1.00 mW/cm² for 2400 MHz
P =	31.00 mW (Maximum peak output power(Conducted))
G =	1.10 (antenna gain : Converted absolute value)
r =	Minimum safe distance from antenna (cm)

For: Cordless Telephone Equipment (BB-HC1) r = 1.65 cm
