Rennie:8.5 x 230  
Should be:7.8 x 226.4

The image shows a 3D CAD model of a mechanical assembly. A long, thin pink rectangular part is highlighted, running diagonally across the frame. It has four circular holes spaced along its length. An arrow points from the text block to this part. To its left, a larger pink rectangular part is also highlighted, with an arrow pointing to it from another text block. Below the long part, a third pink part is highlighted, with an arrow pointing to it from a third text block. The background is a greyish-blue surface representing other components of the assembly. A small red and green coordinate system icon is visible near the bottom center.
