Computer Keyboard

This device is a cable connected manual keyboard for connection to Personal Computers

To Install the Keyboard:

- Turn off computer before installing the keyboard.
- Find the keyboard receptacle on the rear panel of the computer. Usually, an icon can be seen to identify the keyboard connector as shown below.

- Connect keyboard plug on keyboard cable to the proper receptacle on the computer.
- **Note:** Never attempt to force the plug into the receptacle if it does not fit!

To Angle the Keyboard:

- Use the fold-out tilt legs, located at the back left and right corners on the underside of the keyboard. Pull the tabs outward to full open position. Do not use excessive force when doing so.
