

February 2015

The product was approved by FCC under FCC ID:ARA-COMPACT 3X and by Industry Canada under IC:899A-COMPACT3X for operation in 3652.5 – 3697.5 MHz band with 5 MHz, 7 MHz and 10 MHz channel bandwidth.

Telrad would like to apply for Class 2 Permissive Change approval for addition of 20 MHz channel bandwidth support.

The 20 MHz channel bandwidth is software controlled, no hardware changes has been made.

Best regards,
Klara Milman
Project Manager
Telrad Network Ltd.

A handwritten signature in black ink, appearing to read "Klara Milman", written over the printed name.
