Subject: Permissive Change Class II for Telrad Networks Ltd., LTE Cat 6 Single Mode Outdoor CPE,
model WLMS-110-4243 with high gain antenna - FCC ID: ARA-CPE9KPRO3XHG

To whom it may concern,

On 08/14/2019, an FCC ID change Grant was approved for the E.U.T. which is now under
FCC ID: ARA-CPE9KPRO3XHG.

The following C2PC changes were made to the device.

1. Antenna has been changed to one with gain of 22dbi. (new antenna data sheet has been submitted)
2. Accordingly, separation distance of 20cm is not sufficient to meet the RF exposure requirements.
3. New calculations have been performed and submitted which show the device requires a 50 cm separation distance to meet RF exposure compliance.
4. There is no change in the radio of the original device.

We request a Permissive Change Class II based on the above.

Thank you for your assistance.
