Declaration of Conformity

FCC / Industry Canada Compliance Statement

This device has been tested and certified as compliant with the regulations and guidelines set forth in the Federal Communication Commission – FCC part 15, and Industry Canada ICES-003 and RSS-210 Radio and telecommunication regulatory requirements/ Le présent matériel est conforme aux spécifications techniques applicable d'industrie Canada. Cet appareil numérique de la Classe [*] est conforme a la norme NMB-003 du Canada

Manufacturer: Sotera Wireless, Inc.

Model: ViSi Mobile Monitoring System

SARS Exemption Part 15 of FCC Rules / IC RSS-210

This device complies with Part 15 of the FCC Rules and Industry Canada license-exempt RSS standards subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux normes CNR d'industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Call the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by Sotera Wireless could void your authority to operate the device.

MPE/SAR/RF Exposure Information

This device was verified for RF exposure and found to comply with FCC OET-65 RF Exposure and RSS-102 Requirements. This device is met the SAR Exemption base on its output power.

Warning: This device must only be used with the Sotera Wireless wrist cradle; maintaining the separation between the radiating antenna inside the EUT and the user, in order to meet the FCC/ IC guidelines. Making changes to the antenna or device is not permitted. Doing so may result in violation of the SAR exemption. This device must not be co-located or operated in conjunction with any other antenna or radio transmitter.
