1. Introduction

This document addresses ID labels and location information on the device, in the legal guide as well as on the packaging of the Barryvox® 2/S2.

2. USA and Canada

2.1. On device

The FCC ID, the ISED ID and the HVIN can be found in the device's battery compartment, which is accessible without any tools. See Figure 1 for the Barryvox S2 variant and Figure 2 below. Note that the HVIN is different for both variants, but it is found on the same position on the label.

Barryvox® S2's HVIN: 7600.0054

Barryvox® 2's HVIN: 7600.0055

Barryvox® 2 7600.0055
IC: 8038A-BARRYVOX2
FCC ID: ARN-BARRYVOX2

Canada: IC Statement

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s).

Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that causes undesired operation of the device.

Le présent appareil est conforme CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes:

1. l'appareil ne doit pas produire de brouillage.
2. l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement

USA: FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residual installation. This equipment generates, uses and can radiate frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

This device complies with the Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Figure 3 - FCC ID, ISED ID and statements in legal guide

2.3. On the package box

The FCC ID and ISED ID are printed on a sticker on the package box's back side. See Figure 4 below.
