Subject: Requesting Class II permissive change for FCC ID: ARS-ES073EYBM20

To Whom It May Concern:

The purpose of this letter is to request a Class II Permissive change for  
FCC ID: ARS-ES073EYBM20, original granted on 03/09/2023

There is no other hardware or electrical modification made to the applying transmitter  
itself except below:

1. Change panel and the NFC RF circuit does not change.  
The difference between the original and new panel is that the original one uses a 4-color panel, while the new one uses a 7-color panel.
2. ADC switch is adjusted for functionality through software, there is no hardware change.
3. The mirco USB anti-mis-interpolation function is added. (The side-by-side photographs showing this change is submitted. Please refer to internal photos exhibit)
4. Added a series model (ES073ENBM30) with only a different model name compared to the original model.

Please contact me if you have any questions or need further information regarding this application.

Best Regards
