Subject: Class II Permissive Change for Class B Computing Device Peripheral  
FCC ID: ARSCM9950 / AOC Monitor, Model 9GlrS Series

Gentlemen:

Enclosed, please find Top Victory Electronics (Taiwan) Co., Ltd.'s application for equipment authorization, dated October 6, 1999. This device was originally granted on March 22, 1999 in compliance with Part 15, Subpart B of the FCC Rules.

This device was previously reported as 19" Color Monitor that supported 30-95 kHz horizontal and 50-150 Hz vertical sync frequencies with maximum resolutions up to 1600x1200, Non-Interlaced. Also, this monitor was reported as provided with: (1) detachable 1.8m unshielded power supply cord; (2) undetachable 1.8m shielded video interface cable with two ferrite cores; and (3) CRT by Panasonic, type M46LNS180X18 or by Chunghwa, type M36AJN83X46.

This Class II Change is to report the following changes: (1) undetachable 1.8m shielded video interface cable with one external bonded ferrite core near 15-Pin D-Sub connector; (2) alternate CRT by Panasonic, type M46LQU280X10; and (3) re-layout of video board.

This EUT was system tested in accordance with ANSI C63.4-1992 to show compliance to FCC Part 15 Class B limits. Tests were performed in representative five different video modes including worst case being fully reported 1600x1200 @ 94 kHz.

Should you have any questions or comments, please contact the undersigned. Thank you for your attention and cooperation in this matter.

Sincerely yours,

Richard Mullen
