Attention: Authorization and Evaluation Division

Subject: **Class II Permissive Change/15" LCD Monitor, FCC ID: ARSTF1560E**
Original granted on July 22, 1999.

Dear Sirs:

This letter serves as our explanation that the subject certified product change is the addition of audio function on the EUT. Below listed some modifications on the sample submitted for testing. We declare that the same will be implemented into all production units to enhance compliance of the units to FCC limits. The FCC ID label remain unchanged.

The modifications include the following:

1. Added two ferrite cores on the video cable – one in the inside and one in the outside of the monitor. (see photo 2 & 7)
2. Added two ferrite cores on the power cord connecting power board and logical board. (see photo 6 & 7)
3. Added a ferrite core on the wire connecting power board and audio board. (see photo 6)
4. Added a ferrite core on the wires connecting control board and logical board. (see photo 10)
5. Added a ferrite core on the wires connecting logical board and inverter board. (see photo 10)
6. Added metal shielding on the component side of the logical board and the inverter board for EMI. (see photo 10)
7. Added EMI gasket on the inside of metal shielding of logical board. (see photo 10)
8. Added aluminum foil on the sides of the LCD panel for EMI. (see photo 13)
9. Added EMI gaskets on the back of the LCD panel. (see photo 14)

If you have any further questions or comments regarding the above, please don't hesitate to contact Mr. Mike Su of ADT Lab. at fax No.:886-2-2602-2943 or E-mail: mike@mail.adt.com.tw

Sincerely yours,

Frank Yang / R&D Project Manager
