

Relm Communications Inc  
7100 Technology Drive  
West Melbourne, Florida 32904

Dear Maryanne Bosley:  
Subject: FCC grant transfer

Relm Communications completed the acquisition of the private radio communications division of Uniden Corporation on March 14, 2000. Relm has contracted Uniden Corporation to continue to manufacture the product. I have submitted a form 731 on each of the products Relm will continue to sell commercially. There have been no changes made to the products and all FCC labels will appear in the exact locations specified in the previous grants. The only changes will be the company name and the FCC ID. I am requesting a transfer of ownership, please let me know what I need to provide to accomplish this

Respectfully,  
Kenneth Klyberg  
Product Manager  
Relm Communications
