Ref: Dismissal of this Class II Permissive Change (TC805143)
FCC ID: AS57705SARHMC-2

We are requesting a dismissal of this Class II Permissive Change (TC805143) as directed by FCC. This is due to the fact that the grant was issued based upon mistaken guidance, by the FCC, regarding the allowance of increasing the power listed on the grant through an increase in antenna gain. We now know that this type of change is not allowed. We will maintain the original grant as issued. No units have been sold or marketed in the U.S. under FCC part 96 Category B levels.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Shalla", is positioned below the "Sincerely," text.
