

**APPLICANT: Lucent Technologies**

**FCC ID: AS5CMP-33**

**EXHIBIT 6**

**Section 2.1033 (c)(10)**

**A description of all circuitry and devices for determining and stabilizing frequency.**

The Cellular TDMA/Analog Multi Carrier Linear Amplifier (CMCLA), Part Number 44WA29, subject of this Class II Permissive Change request, is a base station linear power amplifier in the Cellular Frequency Band 869.04 – 893.97 MHz and does not contain or incorporate circuitry and devices for determining and stabilizing frequency.
