

Conducted Spurious Measurement of Antenna Output Port When Transmitting in PCS Block A1, Two Carrier Configuration

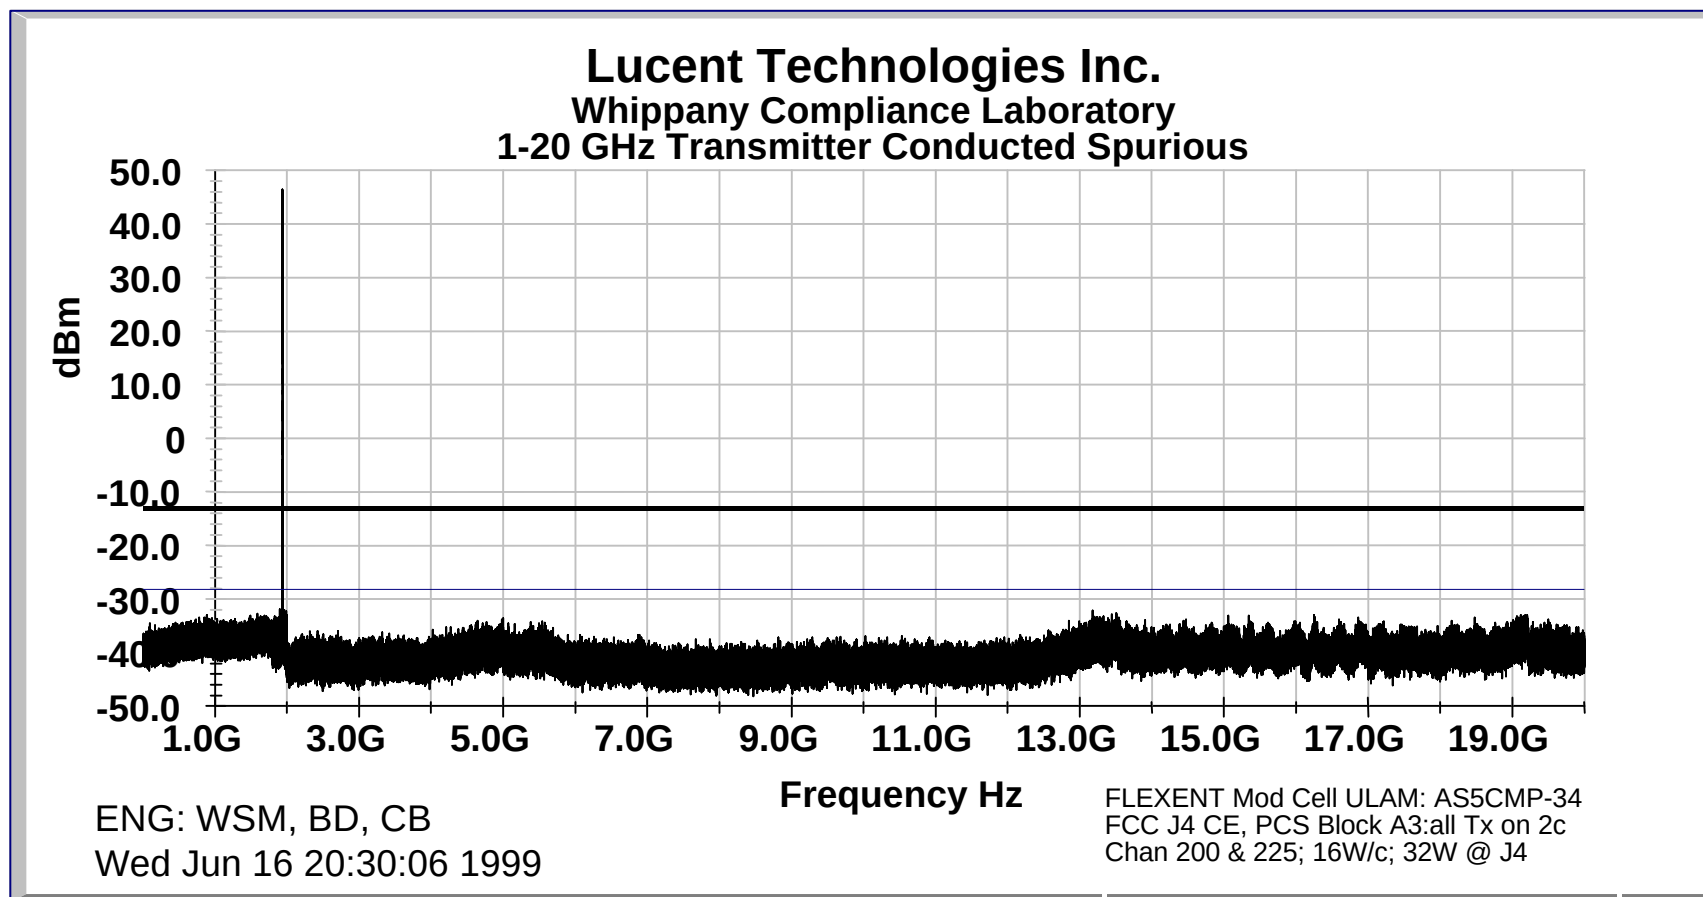

Conducted Spurious Measurement of Antenna Output Port When Transmitting in PCS Block A1, Two Carrier Configuration

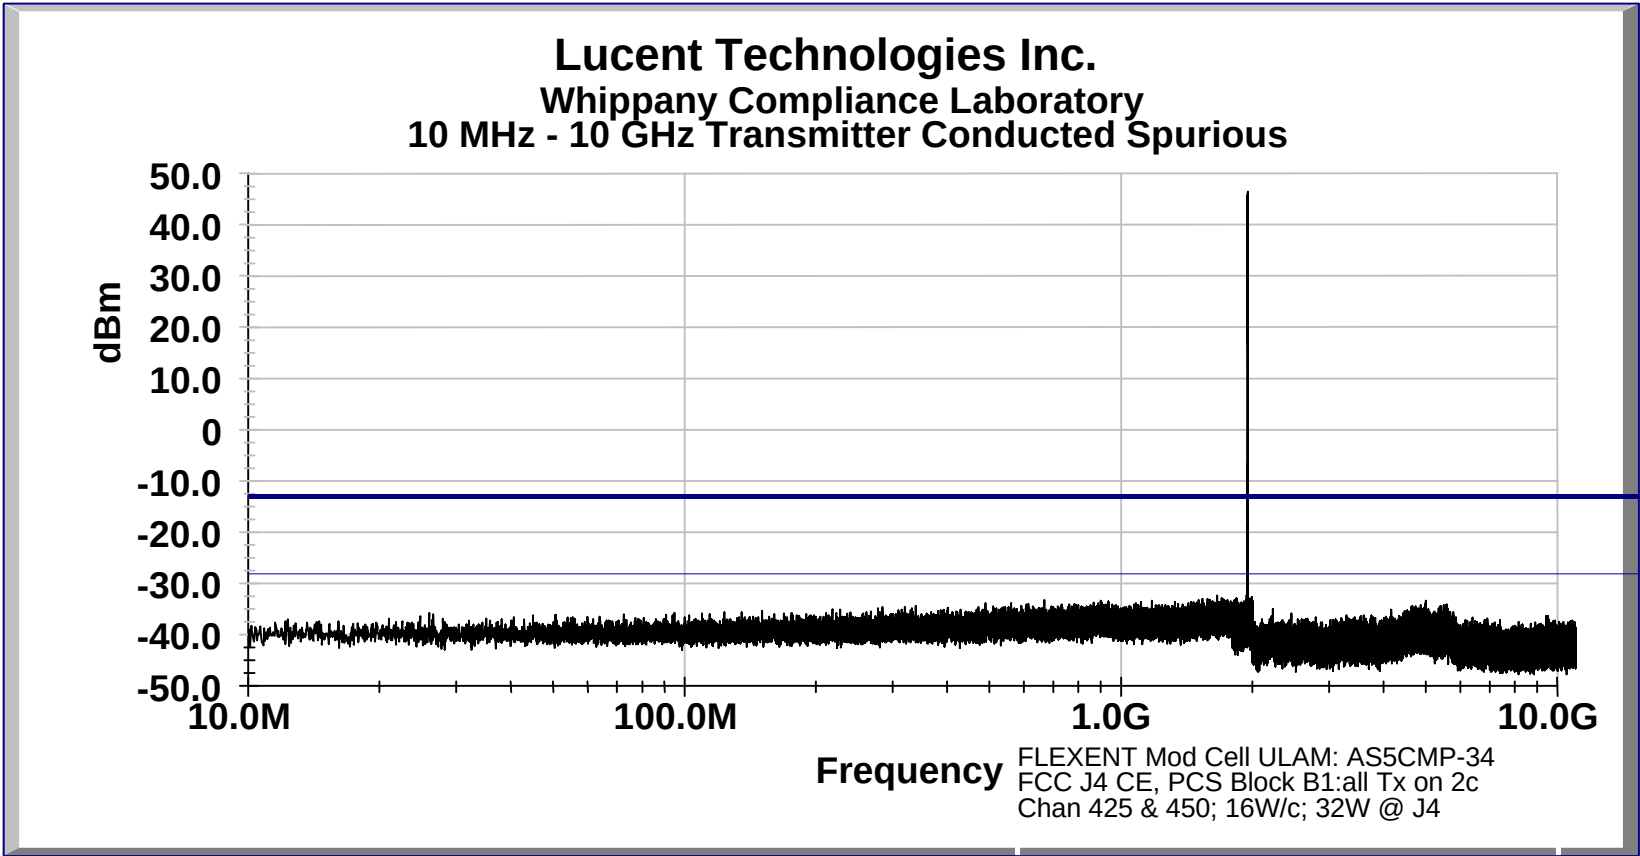

Conducted Spurious Measurement of Antenna Output Port When Transmitting in PCS Block A3, Two Carrier Configuration

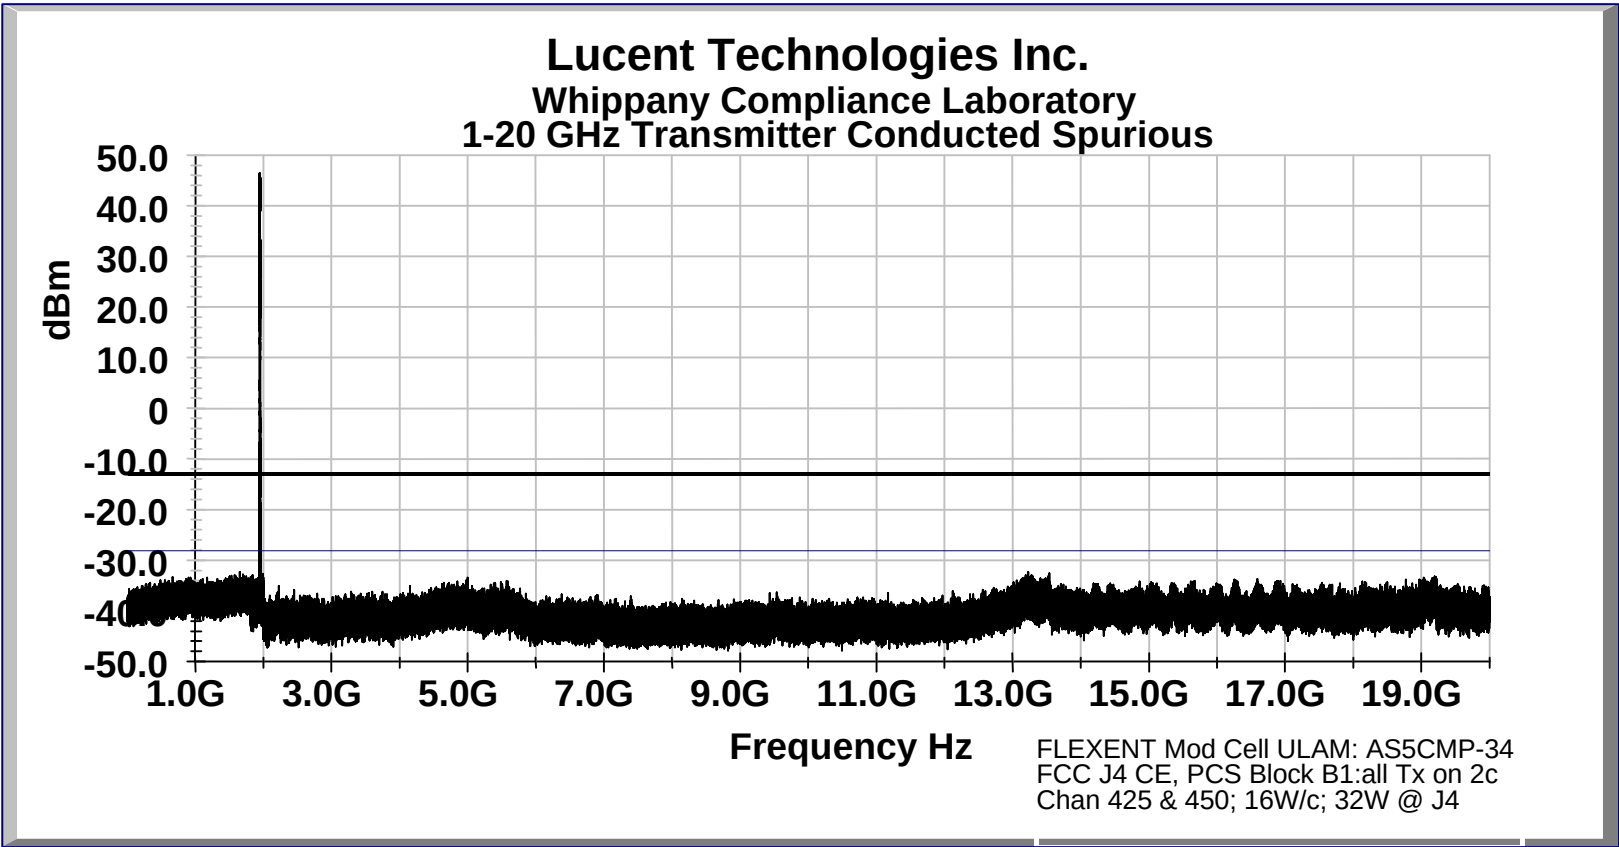

Conducted Spurious Measurement of Antenna Output Port When Transmitting in PCS Block A3, Two Carrier Configuration

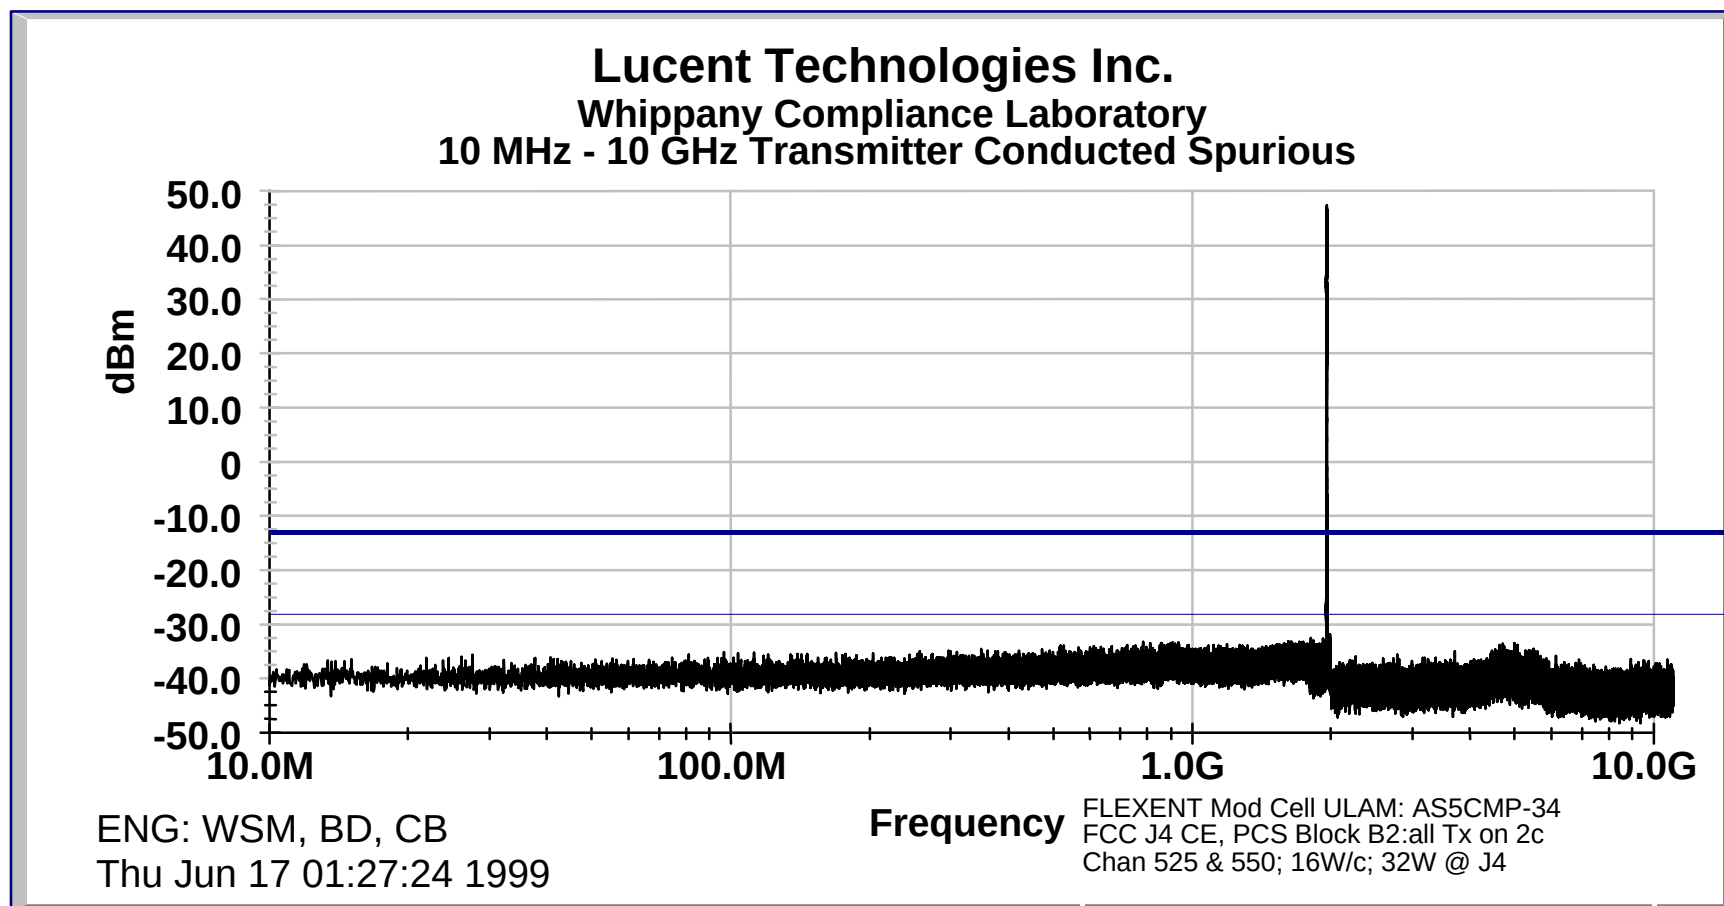

Conducted Spurious Measurement of Antenna Output Port When Transmitting in PCS Block B1, Two Carrier Configuration

Conducted Spurious Measurement of Antenna Output Port When Transmitting in PCS Block B1, Two Carrier Configuration

Conducted Spurious Measurement of Antenna Output Port When Transmitting in PCS Block B2, Two Carrier Configuration

Conducted Spurious Measurement of Antenna Output Port When Transmitting in PCS Block B2, Two Carrier Configuration
