**August 29, 2001**

**Dear Sid Sanders:**

On behalf of Lucent Technologies, I hereby request that the following exhibits, included in the Application for Certification for FCC ID: AS5CMP-45, be maintained as confidential information and not be made available for public inspection at any time.

**Exhibit 7: Operational Description (Theory of Operation, Functional Description)**

**Exhibit 9: Schematic Diagrams**

**Exhibit 11: Flexent oneBST base station for TDMA 1900 MHz Networks; Operations, Administration, and Maintenance Manual**

These exhibits contain Lucent Technologies proprietary information that is considered to be trade secrets, with possible patents pending, and the property of Lucent Technologies, pursuant to the provisions of Part 0.457(d) of the Commission's Rules. These exhibits also contain design information that is highly proprietary to Lucent's contracted manufacturer/supplier.

The **Operational Description (Theory of Operation, Functional Description)** and the **Schematic Diagrams**, included in **Exhibits 7 and 9**, respectively, are highly proprietary and contain critical design information that can not be made available for public inspection. This information is proprietary to both Lucent and Lucent's contracted manufacturer/supplier. The **Flexent oneBST base station for TDMA 1900 MHz Networks; Operations, Administration, and Maintenance Manual** document, included in **Exhibit 11**, is not furnished to the user, except under very exceptional and very limited circumstances. This manual contains highly proprietary circuit, equipment and architecture descriptions that must not be made available for public inspection. The cover/title page is explicitly labeled "Unpublished and Not for Publication".

Thank you for your consideration in this matter.

Sincerely,

Rudolph J. Pillmeier  
Technical Manager  
EMC Conformance Test Group, Whippany
