

TUNE-UP PROCEDURE
SECTION 2.1033 (c) (9)

TUNE-UP PROCEDURE

SECTION 2.1033 (c) (9)

Tune-up procedure over the power range, or at specific operating power levels.

RESPONSE: There are no specific user tune-up procedures for either power levels or frequency. During normal operation software controls the power level from -25dBm to $+10\text{dBm}$.
