Mr. Sid Sanders, President
Timco Engineering, Inc.
849 N. W. State Road 45, P. O. Box 370
Newberry, Florida 32669

Dear Mr. Sanders:

On behalf of Alcatel-Lucent, I hereby request that the following exhibits included in this Application for Certification, under FCC ID: AS5ONEBTS-17, covering the Alcatel-Lucent UMTS 850 MHz Distributed Base Station be maintained as confidential information and not be made available for public inspection at any time.

- Exhibit 6: Operational Description (Theory of Operation, Functional Description)**
- Exhibit 8: Schematic Diagrams**
- Exhibit 10: UMTS Distributed Base Station (850 MHz) Operation, Administration and Maintenance Documents**

These exhibits contain Alcatel-Lucent proprietary information that is considered to be trade secrets, with possible patents pending, and the property of Alcatel-Lucent, pursuant to the provisions of Part 0.457(d) of the Commission's Rules. These exhibits also contain design information that is highly proprietary to Alcatel-Lucent's contracted manufacturers/suppliers.

Exhibits 6 and 8 are highly proprietary and contain critical design information that can not be made available for public inspection. This information is proprietary both to Alcatel-Lucent and to Alcatel-Lucent's contracted manufacturers/suppliers. The **UMTS Distributed Base Station (850 MHz) Operation, Administration and Maintenance** documents, included in **Exhibit 10**, are not furnished to the user, except under very exceptional and very limited circumstances. These manuals contain highly proprietary circuit, equipment and architecture descriptions that must not be made available for public inspection. The cover/title page is explicitly labeled "*Unpublished and Not for Publication*".

Thank you for your consideration in this matter.

Sincerely,

Rudolf J. Pillmeier
