

EXHIBIT 9**Section 2.1033 (c)(12) PHOTOGRAPHS OF THE EQUIPMENT**

Photographs (8 x 10) of the equipment of sufficient clarity to reveal equipment construction and layout, including meters, if any, and labels for controls and meters and sufficient views of the internal construction to define component placement and chassis assembly. Insofar as these requirements are met by photographs or drawings contained in instruction manuals supplied with the certification request, additional photographs are necessary only to complete the required showing.

Response

There are no changes or modifications in the hardware of the 1900 RRH 2x60W from UMTS application to LTE application. The photos of the 1900 RRH 2x60W Distributed Base Station, submitted in the initial FCC certification application for UMTS application under the AS5ONEBTS-27 which was granted on March 30, 2012, are still valid for the 1900 LTE RRH 2x60W Distributed Base Station.
