

**EXHIBIT 6****Section 2.1033 (c)(10) CIRCUITRY FOR DETERMINING AND STABILIZING FREQUENCY**

A description of all circuitry and devices provided for determining and stabilizing frequency.

**Section 2.1033 (c)(10) CIRCUITRY AND DEVICES FOR LIMITING MODULATION AND FOR LIMITING POWER**

A description of all circuitry and devices provided for limiting modulation and for limiting power.

**Section 2.1033 (c)(13) DESCRIPTION OF THE DIGITAL MODULATION SYSTEM**

For equipment employing digital modulation techniques, a detailed description of the modulation system to be used, including the response characteristics (frequency, phase and amplitude) of any filters provided, and a description of the modulating wavetrain, shall be submitted for the maximum rated conditions under which the equipment will be operated.

Response

The responses to the above requirements on the 1900 LTE RRH 2x60W Distributed Base Station, submitted in the FCC Class II Permissive Change certification application under the ASSONEBTS-27 which was granted on December 10, 2012, are still valid.
