

**EXHIBIT 8****Section 2.1033 (c)(12) PHOTOGRAPHS OF THE EQUIPMENT**

Photographs (8 x 10) of the equipment of sufficient clarity to reveal equipment construction and layout, including meters, if any, and labels for controls and meters and sufficient views of the internal construction to define component placement and chassis assembly. Insofar as these requirements are met by photographs or drawings contained in instruction manuals supplied with the certification request, additional photographs are necessary only to complete the required showing.

Response

The RF path of the 1900 RRH LTE wireless base station is comprised of two critical RF active components: RF transceiver and RF power amplifier. In RRH 2x60 1900A, the subject of this Class II application, there are no changes or modifications in RF transceiver and only was the RF power amplifier changed.

The following pages contain the required photographs of the 1900A RF amplifier, showing its internal views.

Four photos in total are submitted, which include:

- 1) Front and Rear Views of 1900A RF amplifier.
- 2) Front and Rear Views of 1900A RF amplifier with Shielding Cover Removed.
