FCC ID: ATH2425780

**Clarification of Model Nomenclature**

Dear Sirs:

With regards to the above FCC Identifier, we wish to clarify the model nomenclature designations. This product is part of the Viking<sup>TM</sup> Family of products, and is known as the Viking VP900 product, which is a dual band VHF plus 700/800 MHz portable radio product. It has an internal EF Johnson model number string that begins with the characters 242-578, and has a complete model designation as 242-578X-XXXXXX, in which the seven additional characters listed as X are a seven character string that define specific sub models that are programming and options variants.

Since the product has the same operational characteristics as the Viking VP600 single band radio, it shares the same operators manual as the VP600.

A handwritten signature in blue ink that reads 'John S. Oblak'. The signature is written over a horizontal line.
