

The VOD1221 is equipped with built-in wireless FM Modulator, that allows you to listen to the VOD1221 audio signal by tuning your vehicle's radio to the selected frequency, (88.3, 88.7, 89.1, 89.5, 89.9MHz). This feature is accessed by using either the FM transmitter buttons on the remote (ON/OFF, Channel Select) or the FM Select button on the unit. Whenever the FM modulator is on, broadcast reception on the vehicles radio will be poor. Switching off the FM modulator will allow normal radio reception.
