COMPLIES WITH FCC PART 15 RULES
COMPLIES WITH CISR 1000-10
COMPLIES WITH RSS-210 OF INDUSTRY CANADA

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

13 14

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.
Operation Temp: 0°C - 40°C

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference, you can attempt to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help.

2. This equipment is a portable device. The output power of this device is less than 200mW. The SAR limit is as stated.

3. SAR-Gen

This device complies with Industry Canada's radio frequency (RF) exposure limits. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device complies with Part 15 of the FCC Rules and with ICES-003 of Industry Canada. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

1. Please refer to the user manual for more information on how to use the device. (1) Appropriate use per product use manual, or (2) l'information de l'utilisateur des accessoires de l'appareil, y compris le manuel de l'utilisateur et des documents de documentation.

The Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
