Re: FCC ID: AU792U13A16861

To Whom It May Concern:

The following application is submitted on behalf of our client, Multi-Tech Systems LLC, for evaluation of their model MTCAP-LNA3 for certification under FCC Part 15.247.

The MTCAP-LNA3 is a gateway operating in the ISM band (902-928 MHz). It contains a LoRa transceiver and an LTE/WCDMA bands module. The TELIT LTE/WCDMA is a pre-approved module, FCC ID R17LE910NAV2. The current evaluation covers the LoRa transceiver only, and focuses on the downlink band 923.3-927.5 MHz.

The MTCAP-LNA3 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'.
