## Welcome Your Music Home

We listen to music in motion on headphones and in our cars, but found ourselves listening less often at home. We wanted wireless home speakers that sounded great, were easy to use and designed to blend with décor. So we designed Knit Audio with warm gray woven fabric and rich wood grain finishes and spent time tuning the acoustics to sound great in any room.

We love having music playing when we're rushing around getting ready in the morning, serenading us when we're washing clothes and doing dishes, accompanying us when we're cooking and eating and grooving when we're hanging out with family and friends playing board games, reading a book or simply relaxing. Whatever we're doing, music makes us feel more at home.

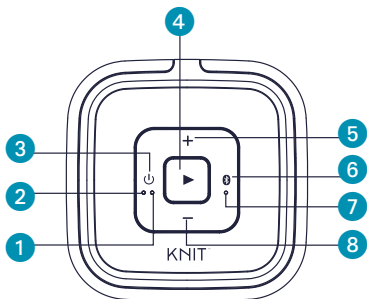

## Happy to Help
