Re: Change in ID's

To whom it may concern,

The following is to state the purpose of changing the grantee code of the following ID's:

From FCC ID:	To new FCC ID:
DGFBCSDG5B1	AVHBCSDG5B1
DGFBCSDG5H1	AVHBCSDG5H1
DGFBCSDXT1B	AVHBCSDXT1B
DGFBCSDXT1H	AVHBCSDXT1H

The ID's belong to a product that we, PAR Technologies bought from 3M. As we transform the product to our branding, etc. we need to also change the grantee code in order for the ID's to reflect PAR as the owner.

The product specifications, operation, and design have not been changed from the original listings, and the original test results are still applicable. Note: The only change will be cosmetic, i.e. instead of 3M logos product will bear the PAR logo.

PAR grantee code is AVH.

If any questions arise, please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Rafael", is written over a light gray rectangular background.

Rafael Martinez
