

Declaration about Application Models and Tested Model

Japan, Inc.
4383-326 Asama-cho, Ise-shi,
Mie 516-0021 Japan

FCC ID : AX2QY5099
Applicant: Clarion Co Ltd

To Whom It May Concern:

This application model, QY-5089, QY-5099 and PH-3709 are essentially the same device with the tested model, QY-5092.

The differences between QY-5092 and application models (QY-5089, QY-5099, PH-3709) are as follows:

- Audio display
- Amplifier type
- Tuner media control
- Navigation
- Camera input
- Sound tuning
- Video jack
- TFT
- Vehicle type
- Back side type (connector)
- Disc Media control

Please refer to the "Theory of Operation-Differences" for details.

These differences cause no influence to radio specification.
There is no degradation of EMC characteristic.
Therefore, we consider them electrically identical.

Sincerely,

Masahiko Shibata
Clarion Co Ltd
