

## Communication Certification Laboratory

November 6, 1998

Ericsson, Inc.  
c/o Gerald Michalak  
7001 Development Drive  
P.O. Box 13969  
Research Triangle Park, NC 27709

Dear Gerald,

On behalf of UTAM, Inc., Communication Certification Laboratory, has certified that the equipment identified below, meets the disablement and location verification process (LVP) requirements of FCC Rule 15.307, and qualifies as a UTAM approved coordinatable device.

Applicant: Ericsson, Inc.  
UTAM Member Number: Ericss01  
UTAM Certification ID: AXACCLUM00016  
FCC ID Number(s):  
Portable: AXAROA1173201

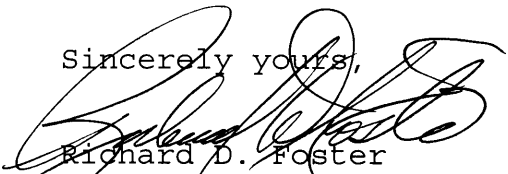

Model number(s):  
System: DCT1900 Modular System  
Portable: DT-620

Any changes to the (LVP) or disablement mechanism and procedure or any changes to the FCC Certification may require recertification by UTAM, Inc. Please document and forward the details of any changes to Communication Certification Laboratory.

Communication Certification Laboratory will continue to maintain strict confidentiality regarding the engineering and functionality of your product, including the disablement and location verification mechanism.

A copy of this affidavit shall be included with your application for certification by the FCC, in accordance with FCC Part 15, Subpart D.

Sincerely yours,

Richard D. Foster  
Certifying Engineer  
UTAM Certification Laboratory
