Attention: Equipment Authorization Branch  
Subject: Reply to Correspondence ID: 3505 for FCC ID: AXATR-387-A2

Gentlemen,

Ericsson understands and agrees with the FCC proposed listing of 23.7dBm ERP on the Grant of FCC ID AXATR-387-A2. Our original submission and subsequently filed addendum provided the EIRP measurement and not ERP. Since ERP can be derived from EIRP, our calculations confirm your value of 23.7dBm and we have no issues with using this data on the Grant as it is consistent with our original request for certification for this 400mW mobile.

Sincerely,

John P. Rothgeb  
Staff Engineer, Regulatory Services  
Lynchburg, VA
