Federal Communications Commission
Authorization & Evaluation Division
7435 Oakland Mills Road
Columbia, Maryland 21046

Attention: Equipment Authorization Branch
Subject: Type Acceptance for FCC ID: AXATR-413-A2

Gentlemen,

Ericsson Inc. requests a grant for Certification for the above mentioned FCC Identifier. This portable transceiver is designed for use in the AMPS/CDMA 800MHz cellular and 1900MHz CDMA PCS Domestic Public Cellular Radiotelephone Communications Services per Part 22 and Part 24 respectively.

Measurements and calculations for SAR have been made on this radio. This unit complies with IEEE C95.1-1991 (ANSI/IEEE C95.1-1992).

Ericsson Inc. requests confidentiality under 47 CFR 0.459 for the following exhibit listed:

Exhibit 4	Block Diagrams
Exhibit 5	Circuit Diagrams
Exhibit 10	Tune-up/Alignment procedure
Exhibit 12	Operational Description

Justification of this request is that in order to facilitate the circuit miniaturization of the AXATR-413-A2, certain proprietary techniques were implemented to reduce the board space required for the RF circuitry layout. The Operational Description and alignment exhibits provide unique information regarding Service/Alignment Codes. To protect Ericsson's competitive advantage on these proprietary techniques and alignment codes, we request the above listed exhibits be held as confidential and withheld from the Public Information File.

Sincerely,

Pierre A. Chery
Manager, Regulatory Services
