A black, ruggedized handheld device with a long, thin antenna extending from the top. The device has a rectangular base with a blue and white label that reads "T624XP" and "SAMSUNG". The device is shown from a three-quarter perspective, highlighting its compact and durable design.

A black, handheld, portable device with a long, thin antenna, likely a radio or communication unit, resting on a white surface. The device has a rectangular body with a label on top that reads "CALLED". The antenna is a long, thin, black rod extending from the front of the device. The device is positioned diagonally on the white background.
