**Subject:** Extended Frequencies Justification for Certification of Transmitter with FCC ID: **AXI 10654620**

Dear Sir or Madam:

This transmitter was design to operate in the frequency range of 403-470 MHz.

To aid equipment authorization in other countries that accept the United States FCC Grant for Certification, Vertex Standard USA Inc is requesting that the FCC list the above frequency/frequencies under FCC Rule Part 90 on the Grant.

For the FCC's Rule Part 90 applications, this radio is used in systems by Federal and Public Safety agencies including Police, Fire, and Emergency Medical Services, etc. as indicated in the table below. Equipment programming is the responsibility of Authorized Service Personnel. Also, the radio complies with 47 CFR Part 90.203(e), in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.

Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.

Frequency Range (MHz)	Part 90	Federal	Emission Designator
403-406		x	11K0F3E
406.1-454	x		
454-456*			
456-470	x		

\*Canada

Please contact me if you require any additional information.

Sincerely,

Kim Uong  
Regulatory Compliance Engineer
