Columbia, MD 21046

Subject: Application for Class 2 Permissive Change to FCC Authorized Transceiver with FCC ID: AXI11373020

Dear Sir:

A permissive change is requested for the subject transceiver which is marketed in the United States and elsewhere.

| Product Name | Model Number | Frequency Range | RF Power                   |
|--------------|--------------|-----------------|----------------------------|
| EVX-261      | EVX-261-D0-5 | 136 - 174 MHz   | Min : 1.0 W<br>Max : 5.5 W |

**A. DESCRIPTION OF PRODUCT CHANGES:**

The product manufacturing site is moved from China (Sanmina Kunshan) to Malaysia (Sanmina Penang). There is no BOM or design change and the components are from the same source.

**B. PERFORMANCE DIFFERENCES:**

EME has been assessed and no degradation found. However, degradation was found in EMC compared to the original filing but still within the FCC limits.

**C. CONCLUSION:**

This radio continues to meet all FCC emissions requirements for which authorization was granted. However, degradation was found in EMC compared to the original filing but still meet requirements of a Class-2 Permissive Change.

Sincerely,

---
