Subject: APPLICATION FOR CLASS 2 PERMISSIVE CHANGE TO FCC AUTHORIZED Transceiver with FCC ID: AXI11464620

Dear Sir/Madam:

A permissive change is requested for the subject transceiver which is marketed in the United States and elsewhere.

A. DESCRIPTION OF PRODUCT CHANGES:

There is chassis re-tooling change due to manufacturing site changes from Dynacast Suzhou, China to Dynacast Melaka, Malaysia. There is no BOM change, no design change and no material change.

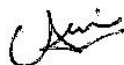

B. PERFORMANCE DIFFERENCES:

EME has been assessed and no degradation found. However, degradation was found in EMC compared to the original filing but still within the FCC limits.

C. CONCLUSION:

This radio continues to meet all FCC emissions requirements for which authorization was granted. However, degradation was found in EMC compared to the original filing but still meet requirements of a Class-2 Permissive Change.

Sincerely,

Arine Lee
FCC/IC Certification Manager
