RE: NEC America Inc.

FCC ID: AY5WLPS1EMH210

After a review of the submitted information, I have a few comments on the above referenced Application.

Administrative Issues:

- 1) The original application (test report) only appears to cover 1 model. This application (test report) appears to only cover 1 model. However 2 different list of changes were provided. It is not certain what these 2 different models are and what the difference is between them. This becomes more of a concern since SAR is involved. You simply provided updated change exhibits, however there is still not an explanation to cover the previously asked question:

There are 2 different list of changes uploaded with this application. Both reference different previous and new models. It is uncertain which list, or whether both lists are applicable to this application. Please explain.

Timothy R. Johnson
Examining Engineer
