

September 26, 2000

Mr. Frank Coperich
Authorization & Evaluation Division
Federal Communications Commission Laboratory
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Response to Correspondence Number 16221 for Pending Certification application with FCC ID: AZ4FLN2583A and Confirmation Number EA97579.

Dear Mr. Coperich:

Protocol Labs on behalf of Motorola, Inc. is responding to the correspondence number 16221. We are also requesting, per our telephone discussion, a change in the FCC identifier from FCC ID: AZ4FLN2583A to FCC ID: AZ489FT4839 and a modification to the transmitter model number information that would be listed in the "notes" section of the Grant for Equipment Authorization. The model number information should be listed as follows: "Moscad-L P44-UHF FLN5923A, SCADA Terminal"

We respectfully agree with the Commission's recommendations and are dropping our request for an F2D Emission Designator. In addition, we ask the Commission to add the following Emission Designators to the application:

11K2F3D, 11K2F1D and 11K2DXW.

We trust that the above information satisfies your requirements. If you have any questions, you may contact me at (604) 218-1762.

Sincerely,

Rob Stirling, P.Eng
