Re: FCC ID: AZ489FT5792, Confirmation Number, EA93655

Dear Dr. Chan:

John and I conferred about your question regarding the leather carry case.

The letter reflects the agreements discussed at yesterday's meeting: (1) Motorola will not provide the current leather carry for this radio product and for purposes of this filing; only the plastic carry case will be available as an accessory; accordingly, the SAR data for the holster should be withdrawn; (2) the FCC Laboratory will review with its management and legal staff the adequacy of the user's guide instructions for the current leather carry case, as suggested by Dave Means; for that reason, the user's guide instructions for the current leather carry case remained with Rich Fabina; (3) after FCC makes its decision on the proposed usage instructions for the current leather carry case, Motorola will consider what options, if any, it may wish to pursue with regard to the current leather carry case or similar carry cases.

We hope that this information fully addresses the questions you have raised.

Sincerely,

Mike Ramnath
FCC Liaison
