Dear Mr. Harrington;

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida 33322, herein requests that the FCC dismiss the above Grant based on the RT with correspondence number 30890 which states "Part 90 operations should be contained in PCE application grant, not as a composite TNE application. Please submit letter from applicant requesting dismissal of this TNE filing".

Please add the Part 90 band, 806-825 MHz to the PCE Grant. Also, add the following sentence "Power output for the band 806-825MHz is continuously variable from the value listed to 0.88mW" in the Grant notes.

Contact me at (954) 723-5793 if you require any additional information.

Sincerely,
