Subject: Response to FCC's Correspondence Reference Number 41637 for
FCC ID: AZ492FT4904 and EA 328447 dated April 23rd, 2012

Dear Mark:

See below for the responses.

- 1) Motorola Solutions is in agreement with the FCC that line 4 of the Tech Specs page of the FCC Form 731 should read 380-406 MHz. Since we cannot change the Form 731, could you correct it for us.

- 2) See the attached amended Frequency Justification Letter.

Sincerely,

A handwritten signature in black ink that appears to read "Mike Ramnath".
