RE: FCC ID: AZDK30218
Attention: Keijiro Kumagai

I have a few comments on this Application.

1. Since this device is for exclusive use in the Bubble Jet I80, why weren't radiated spurious emissions performed in the host?
2. Please provide a separate test setup photo exhibit as required by the FCC.
3. The only Bandwidth measurement for FHSS devices is the 20dB bandwidth of 15.247 (a)(1). Please explain what the plot on page 38 is for.
